“Bryant has been speaking to dental residents in our Graduate Periodontics Program for over 15 years. He is an expert in fraud prevention and management. His presentations are highly interactive and have been very well received. You simply cannot get the information he provides anywhere else! If you are a dentist in private practice, you NEED to hear what Bryant has to say.”

“Searching far and wide for someone to speak to our Advanced Education in General Dentistry group regarding embezzlement in the dental practice, the first time I heard **Bryant Truitt speak to our graduates, I knew we had hit the jackpot.**

Mr. Truitt is the most experienced and knowledgeable person I've encountered speaking on this critical topic. Over the past 15 years speakers have come and gone, but we will never do without Bryant! He is one of the most popular speakers, teaching a subject that will likely save many of these doctors from a business tragedy in the future. He is a very important cog in the wheel of our graduate course, and I give him my strongest possible recommendation.”
